

Erratum

Measuring whole-body inert gas uptake and washout during submersion

Oscar Plogmark, Kristian Soltesz, Carl Hjelte, Oskar Frånberg

Plogmark O, Soltesz K, Hjelte C, Frånberg O. Measuring whole-body inert gas uptake and washout during submersion. *Diving and Hyperbaric Medicine*. 2026 30 June;56(2):137–147. doi: [10.28920/dhm56.2.137-147](https://doi.org/10.28920/dhm56.2.137-147). PMID: [42290573](https://pubmed.ncbi.nlm.nih.gov/42290573/).

An error was identified in Figure 3 of the published article. The images in the figure were incorrectly placed, resulting in the same image being shown for each part of the figure.

The online version of the article has been corrected, and the corrected figure will also be included in the version deposited in PubMed Central. However, three versions of the article had already been distributed before the error was identified and cannot be corrected retrospectively.

The error is limited to Figure 3 and does not affect the text, data, results or conclusions of the article.

The journal apologises for the error.

doi: [10.28920/dhm56.3.388](https://doi.org/10.28920/dhm56.3.388).
PMID: [42743583](https://pubmed.ncbi.nlm.nih.gov/42743583/).

Diving and Hyperbaric Medicine Journal copyright statement 2026

All articles in *Diving and Hyperbaric Medicine* are published under licence from the authors. Copyright to these articles remains with these authors. Any distribution, apart from for limited educational purposes, is in breach of copyright.

HBOEvidence

HBOEvidence is seeking an interested person/group to continue the HBOEvidence site. The database of randomised controlled trials in diving and hyperbaric medicine. The HBOEvidence is in the process of being integrated into the SPUMS website.

Those interested in participating in this project can contact: Stephan Roehr president@spums.org.au

Back issues of DHM

After a one-year embargo, individual articles from *Diving and Hyperbaric Medicine* are freely available on our website <https://www.dhmjournal.com/index.php/full-journals-embargoed/full-journals>

They are also available on PubMed Central as full articles after one year embargo dating back to 2017. These are searchable via their doi, PMID or PMCID number.

Embargoed articles are available via the DHM website for single use purchase.
